

July 10, 2015

Francesco Squintani's Disclosure statement to accompany resubmission of "Strategic Information Acquisition and Transmission," joint with Rossella Argenziano and Sergei Severinov.

I gratefully acknowledge financial support for the study of this manuscript by the Italian MIUR, PRIN 2017, titled "Acquisizione, utilizzo e trasmissione dell'informazione privata nei mercati finanziari: teoria e applicazioni". I did not receive any source of significant financial support from any interested party, summing to at least \$10,000, in the past three years, in the form of consultant fees, retainers, grants and the like. Neither I, nor my wife, nor any close relative holds any position as officer, director, or board member of any relevant non-profit organizations or profit-making entity. No other party, except for my coauthors, had the right to review the paper before its circulation.
