

### Readme for “Take Two! SAT Retaking and College Enrollment Gaps”

For privacy reasons, the student performance data cannot be freely posted online. We are able to post all of the code we used to analyze the data and can help facilitate other researchers’ potential access to the data. Other researchers can gain access to these data for replication purposes by contacting the College Board here:

The College Board  
250 Vesey Street  
New York, NY 10281  
212-713-8088

Or through the direct online portal here: <http://research.collegeboard.org/data/request>

We include here two Stata .do files to aid in replication:

- 1) **clean.do** takes the raw data from the College Board and transforms into the final data set for analysis.
- 2) **analyze.do** contains a variety of sub-programs, each of which creates one of the figures or tables in the published paper.
