

To the American Economic Association,

I have no conflicts of interest to declare for the submitted paper “Organizing Time Exchanges: Lessons from Matching Markets”. While working on this paper I have been an employee at the Centre for Economic and Regional Studies (postdoc). Now I am working as a postdoc at my earlier institute and the Hasso Plattner Institute. Parts of the research is funded by the “Hungarian Academy of Sciences”. The research undertaken in this paper is fully independent from the above-mentioned organizations, which do not have any stake in the results of the paper. I have nothing to disclose in terms of memberships in relevant organizations. No party had the right to review the paper prior to its circulation.

Sincerely,

Agnes Cseh, March, 2020
