

Disclosure Statements for “Notching R&D Investment with Corporate Income Tax Cuts in China”

February 4, 2021

To the Editor:

This paper did not involve the collection of data on human subjects. For this reason, the authors did not seek to obtain Institutional Review Board (IRB) approval.

This project was partly funded by a National Science Foundation grant (#17300024). During this time period I also benefited from a Junior Faculty Fellowship from the Kauffman Foundation. In addition, I also received a research grant for an unrelated paper from the International Tax Policy Forum.

I did not sign any non-disclosure agreements with any of these funding agencies. None of the results of this paper have been reviewed by any funding agency.

Finally, I have no relevant or material financial interests that relate to the research presented in this paper.

Respectfully,

Juan Carlos Suárez Serrato
