Financial and IRB disclosure statement for the article: “Semesters or Quarters? The Effect of the Academic Calendar on Postsecondary Student Outcomes”

I received no financial support for this study. I hereby declare that I have no relevant or material financial interests that relate to the research described in this paper. Cal Poly San Luis Obispo IRB determined that this project is not regulated because I received and analyzed de-identified data.

Some of our data (i.e., Ohio Longitudinal Data Archive and data from the Unemployment Insurance (UI) system) is not publicly available, so we will be unable to share it with interested researchers. However, we agree to share instructions on applying for the data we have collected and our program files.

Sincerely,

Stefanie Fischer
