

I did not receive financial support specifically for writing this paper. I receive general support as part of my Stanford academic salary. At Stanford, I am the Donald Lucas Endowed Professor of Economics and a Senior Fellow at SCID and SIEPR. I also acknowledge the support and hospitality of CASBS at Stanford, where I was a Fellow during 2014-15 while working on this paper among others. I am also a Research Associate at the NBER. As part of a diversified portfolio, I hold more than \$10,000 in shares of companies in various sectors that could be impacted by recently proposed trade deals under consideration. In addition to editorial board memberships at academic journals, my recent board memberships are Advisory Board of Nor1, Inc., and Board of Directors of a small, family-owned company with interests in the oil and gas industry.
