

Visit us at booth #418

OECD DATA ON DISKETTES

Much of the data OECD puts out in publications is also available on diskettes. Below you will find information on some of the files. Stop by booth #418 for information on these and other files now available on diskettes.

Economic Outlook

A twice yearly source of timely statistics for OECD Member countries. Includes projections for output, employment, prices and current balances over the next two years, and historical statistics going back to 1976. One year subscription: \$400.00.

Main Economic Indicators

Issued monthly. The main source of timely statistics for OECD Member countries. Presents statistics and/or indicators for GNP, industrial production, construction, employment, labor costs, wages, foreign trade and balance of payments. One year subscription: \$1260.

Annual National Accounts

Over 3000 series of the main national account aggregates. Includes data for individual countries expressed in national currencies as well as comparative statistics for the period from 1960. Covers expenditures on the GDP at current and constant prices, cost components of the GDP, capital transactions of the nation and relations among national accounting aggregates. One year subscription: \$250.00.

World Energy Statistics

A detailed compilation of production and consumption covering the entire world and including all major sources of energy. Provides energy data and balances for more than 80 countries. A valuable reference tool for every researcher in need of statistics on energy. One year subscription: \$450.00.
