

Disclosure Statement for Dean Spears for Inversions in US Presidential Elections: 1836-2016

1. Sources of financial support for the research

This research was supported by the Eunice Kennedy Shriver National Institute of Child Health and Human Development center grant P2CHD042849 awarded to the Population Research Center at UT-Austin.

Dean Spears' research time is supported by NIH Population Scientist career grant K01HD098313, although this grant is not tied specifically to this paper.

2. Potentially relevant professional and financial relationships in the past 3 years:

- University of Texas at Austin: Assistant Professor: Salary
- Dean Spears has been paid a salary as Executive Director of r.i.c.e., a 501(c) public charity non-profit corporation. This relationship constitutes no relevant or material financial conflict of interest, as no aspect of my or r.i.c.e.'s financial situation is tied to the conclusions or arguments of this research. Since its initial operations in 2013, r.i.c.e. has received grants from the Bill and Melinda Gates Foundation, from the TRAction project of USAID, from the NIH, and from IGC – all with Dean Spears as a PI or co-PI, and all related to r.i.c.e.'s research on sanitation in India.
- Separately from r.i.c.e., Dean Spears has personally been paid as a Short Term Consultant at the World Bank, as a consultant for IPFRI (as compensation for co-authoring a book chapter), and as a short-term Visiting Fellow and Lecturer at Princeton University's Woodrow Wilson School. He has had travel funded by the Aix-Marseille School of Economics, APU, the Bill and Melinda Gates Foundation, Brown, Chicago Booth, CUNY, Duke, the Institute for Future Studies, 3ie, J-PAL, McMaster, NCAER, NCSU, Penn, Princeton, Tufts, UQAM, USC, the University of Texas, Vanderbilt, Washington University at St. Louis, and the World Bank.

3. Paid or unpaid positions of relevant entities.

None, other than listed above

4. Spousal or family-related COIs

None (Dean Spears' wife Diane Coffey is an assistant professor at UT-Austin and has had research funded by the NIH and the BMGF.)

5. Each author must disclose if another party had the right to review the paper prior to its circulation.

None

6. IRB approval

None required, not human subjects
