

Online Appendix for “Do Male and Female Students Use Networks Differently?”

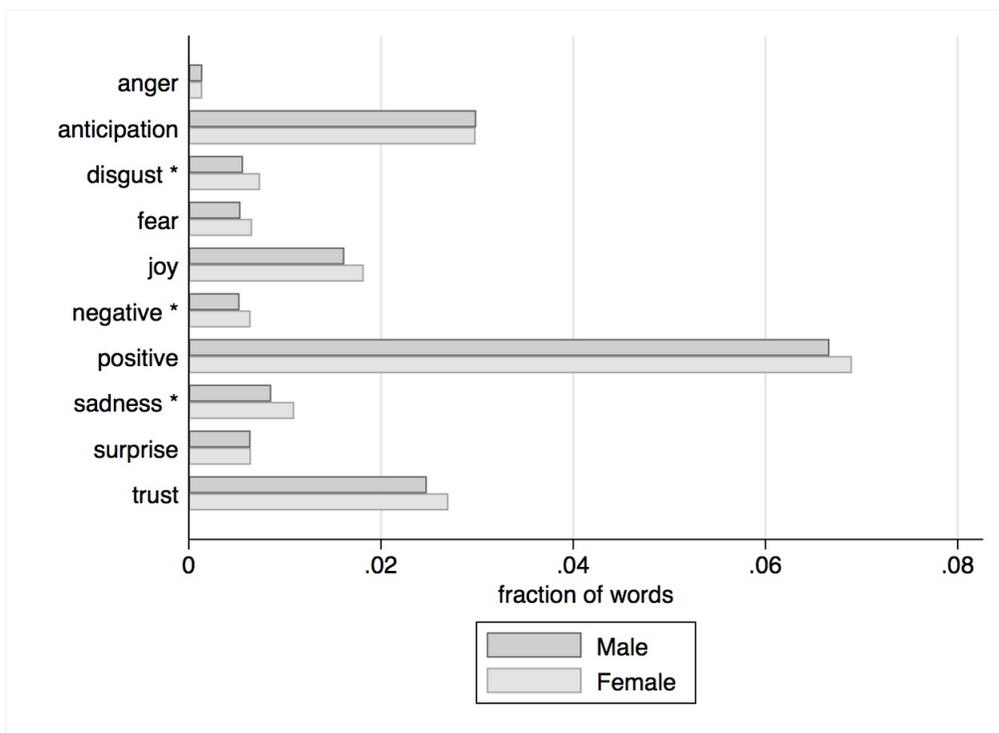

Yana Gallen and Melanie Wasserman

Figure A1: Student Major Distribution by Gender

Note: This figure plots the proportion of male and female students using the website by their listed major, excluding those students who do not list a major. Majors are classified according to the ACS 2016 general degree codes.

Figure A2: Sentiment of Messages Sent

Note: This figure plots the regression adjusted mean fraction of words with a particular sentiment per message sent, using Equation (2).
