Whereas it is found by Experience, That the Punishments inflicted by the Laws now in Force against the Offences of Robbery, Larceny, and other Felonious Taking, and Stealing of Money and Goods, have not proved effectual to deter Wicked and Evil-disposed Persons from being Guilty of the said Crimes: And whereas many Offenders, to whom Royal Mercy hath been Extended upon Condition of Transporting themselves to the West-Indies, have often neglected to perform the said Condition, but returned to their former Wickedness, and been at last by New Crimes brought to a Shameful and Ignominious Death: And whereas in many of His Majesties Colonies and Plantations in America, there is great Want of Servants, who by their Labour and Industry might be the Means of Improving and Making the said Colonies and Plantations more Useful to this Nation: Be it Enacted by the Kings most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and the Commons in this present Parliament Assembled, and by the Authority of the same, That where any Person or Persons have been Convicted of any Offence within the Benefit of Clergy, before the Twentieth Day of January,

An Act for abolishing the Punishment of Death in certain Cases of Forgery. [16th August 1832.]

**W**HEREAS by an Act passed in the First Year of His present Majesty's Reign, intituled *An Act for reducing into One Act all such Forgeries as shall hereafter be punished with Death, and for otherwise amending the Laws relative to Forgery*, it was provided, that if any Person should after the Commencement of that Act be convicted of any Forgery or other Offence therein named or described, for which he would at the Time of the passing of that Act have been liable to the Punishment of Death, he should not suffer Death for the same, unless the same should be made punishable with Death by that Act: And whereas by the Law and Practice now prevailing in *Scotland* and in *Ireland* the Penalty of Death may be awarded, in certain Cases, for Forgery, for uttering counterfeit Instruments, and for false Personation: And whereas it is expedient to abolish the Punishment of Death for Offences of that Nature, except so far as relates to Wills and certain Powers of Attorney, as herein-after mentioned; be it therefore enacted by the King's most Excellent Majesty, by and with the Advice and Consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the Authority of the same, That where any Person shall after the passing of this Act be convicted of any Offence whatsoever for which the said Act enjoins or authorizes the Infliction of the Punishment of Death, or where any Person shall after the passing of this Act be convicted in *Scotland* or *Ireland* of any Offence now punishable with Death, which Offence shall consist wholly

Notes: The figure shows the results for the baseline regressions corresponding to estimating equation (1) for the sample years 1803-1871 when excluding one offense category at a time (see Fehler! Verweisquelle konnte nicht gefunden werden. specification details). The dependent variable is a dummy variable indicating jury verdict of guilty of any charge (Panel A) and guilty of the original charge (Panel B). The dots represent the point estimate when the offense category indicated on the x-axis is excluded. The bars represent the corresponding 95 percent confidence intervals with standard errors clustered by offense. Sources: *The Old Bailey Proceedings Online* and own calculations
